Acknowledgements

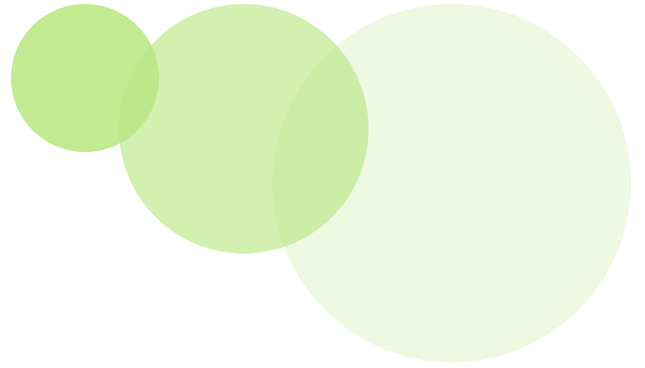

First I would like to thank my classmates. Without your constructive criticism and great feedback, I would not have been able to create and edit this manual. You have all helped me so much!

Secondly, I would like to thank Professor Solberg for her help and feedback throughout this capstone project. Thank you most of all for giving me direction in where to take this manual conceptually.

Lastly, I would like to thank my friends and family for proofreading and testing the content of this manual.

Appendix

A decorative graphic consisting of two rows of overlapping circles. The top row has five circles, and the bottom row has six circles, all in various shades of purple. The circles are semi-transparent and overlap each other.

Chapter 1

This chapter focuses on Adobe Illustrator itself: How it works, what are the pros and cons of using the software, and how it compares to other Adobe softwares. This chapter also discusses the differences between vector images and raster images, and teaches you how to open a new document.
